

MESO CHEEK LIFT

MESO CHEEK LIFT activates cell reconstruction

Lines caused by facial expressions are always visible. We use about 60 muscles while communicating both through speech and facial expressions. Frowning, lifting of eyebrows, laughing, pulling a face are some typical facial expressions that we use to communicate. As time passes and with frequent use of these facial movements, these wrinkles persist and become permanent deep wrinkles on the forehead, laughter lines and crow's feet. Besides injection there is a clear consumer led need for effective, safe topical treatments.

MESO CHEEK LIFT

Contents:

- 10 x 5 ml vials
- 10 x transparent pipettes
- For 10 treatments

Item no.: MST102

 **mesoskinline**
MILANO - HAMBURG - COPENHAGEN By Alexandra Kjaersfeldt

MESO CHEEK LIFT is a non-invasive form of mesotherapy based on the regenerative and stimulating properties of peptides. The formula of MESO CHEEK LIFT contains SYN®-AKE. A small molecular weight synthetic peptide that smoothens expression lines by topical application. SYN®-AKE has a natural inspired mechanism. It mimics the activity of Waglerin-1, a natural occurring peptide found in temple viper venom (*Tropidolaemus Wagleri*). Waglerin-1 has a strong ability to relax muscle contraction.

MESO CHEEK LIFT Activates Cell Reconstruction

Benefits

- Age-killing effect particularly effective against expression lines
- Visible deep wrinkle smoothing after only one month
- Helps your face to relax without losing the ability to express yourself

MESO CHEEK LIFT

Nourishment for a strong, supple skin. MESO CHEEK LIFT is a non-invasive form of mesotherapy where the three main vitamins for the skin well-being (A-C-E) are present in the most stable forms to ensure complete absorption.

Vitamin E and C

Due to radical scavenging activity, they protect the skin from external factors (pollution, UV-A UV-B) that can be dangerous for the skin and cause premature ageing.

Vitamin A

Retinol keeps the skin intact and repairs damaged cells. Vitamin A is, in fact, very useful for chapped, reddened and irritated skin, reddened and irritated.

It also performs a sebum-regulating action, which balances the production of skin sebum.

Active ingredients (30)

Sodium PCA, Vitamin (A-C-E), SYN®-AKE.

Main treatment areas

- Face
- Body

This treatment benefits

- Anti-ageing, early signs of ageing
- Improves the skin's texture and connective tissue
- Reduce wrinkles
- Reduce scar tissue
- Reduce stretch marks

TREATMENT FREQUENCY / TIP

- Once a week for eight weeks
- Highly effective where the skin has lost its elasticity (especially on the cheeks).

Age

- 35 +

INGREDIENTS

AQUA, GLYCERIN, SODIUM PCA, TOCOPHERYL ACETATE, DIPEPTIDE DIAMINO BUTYROYL BENZYLAMIDE DIACETATE, RETINYL PALMITATE, SODIUM ASCORBYL PHOSPHATE, ISOLEUCINE, THREONINE, GLYCINE, HISTIDINE, ALANINE, VALINE, PROLINE, SERINE, PHENYLALANINE, SORBITOL, CITRIC ACID, GLYCERYL LINOLEATE, GLYCERYL LINOLENATE, SODIUM BENZOATE, POTASSIUM SORBATE, SODIUM LACTATE, ARGININE, ASPARTIC ACID, XANTHAN GUM, LECITHIN, PHENOXYETHANOL, DISODIUM EDTA, ETHYLHEXYLGLYCERINE
